HAPPY INTERNATIONAL MEN'S DAY
It has always been my wife's dream to start a business but the timing was never right. However, during lockdown we discussed that we need to have faith in each other and take our relationship to the next level by supporting each other. I agreed to financially support her regardless of the outcome of the business. Today she's managing a successful business with a staff of 150 and a revenue of LKR 300Mn within two years, and even now we daily challenge each other to achieve personal growth.
